

Run:

```
./src/run_gerbv -gdb -s /gerbv-pnp-sock -p example/pick-and-place-2/if2qs-top.proj
```

-gdb is optional, and connection to pnp tool (in-house built) was established with a driver as follows:

```
cat /dev/ttyACM0 | socat - abstract-sendto:/gerbv-pnp-sock
```
